### Comment text:

Those of us that live in Paddock Wood West are part of Paddock Wood and not Capel. I would have thought it made more sense to combine Paddock Wood East and West under one borough - Paddock Wood. Why split Paddock Wood, the town needs to stay as a whole. Time and time again the residents of Paddock Wood are losing out to someone in an office making decisions when they don't necessarily know the area. Just by looking at a map doesn't make it right for the residents. Why increase the size of Capel borough when there is a town earmarked to be built between Tonbridge and Capel. The residents of Paddock Wood West would end up being lost in such a large borough. What is the rationale behind this decision of dividing a town.
