Comment text:

Sherwood ward has very strong name recognition and identity with local residents so I would recommend that it is retained. The ward works well for the ward councillors as the vast majority of those who work at the North Farm retail parks (all within Sherwood Ward) also live within the current boundary of Sherwood ward. This has helped the ward councillors to successfully represent the residents in terms of where they live and work, as well as commuting aspects such as local buses. The only aspect that could be improved is the boundary on the top half of Sandhurst road at the Pembury Road junction side. Splitting the ward down the middle of this road doesn't work and it would be better if the houses on both sides of Sandhurst Road are included within the boundary of Sherwood ward.
