Organisation Name:

Comment text:

To many wards, to many Councillors and to many different elections for to many different reasons. This creates confusion, especially with County Council elections and Local Council elections, what is the point of wasting money we do not have ? Reduce wards, reduce Councillors, reduce spending our money which is even more annoying when we see our local infrastructure failing or collapsing. Plus change the rules to require all Councillors to live in the ward they serve is important. We have far to much waste of money from funds that are currently struggling to cope now.
