Comment text:

I think Canvey Island and the mainland need an equal number of wards in Castle Point, regardless of resident numbers, Canvey Island residents have felt unheard, outvoted and dominated by the mainland Councillors for generations. If you were to look at the former leaders of the Council and former Cabinet members (all parties,) historically it has solely been made up of mainland ward Councillors who make decisions on Canvey Island without fair input from Canvey ward Councillors. It needs to be more democratic and Canvey Island needs better representation in Castle Point.

I think representation between the Canvey Island wards and the mainland wards needs to be equally split as teh numbers suggest it should.
