Review Officer (Derby)  
Local Government Boundary Commission for England  
PO Box 133  
Blyth  
NE24 9FE

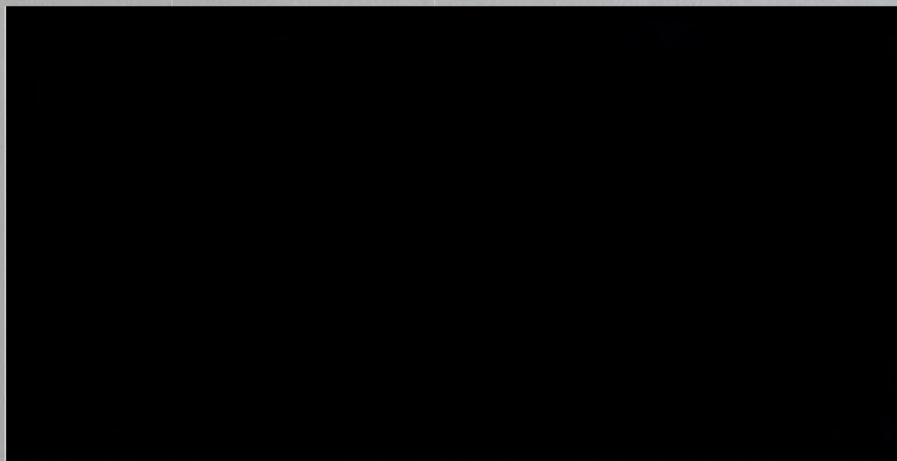

To whom it may concern,

**KEEP OSMASTON TOGETHER**

The Boundary Commission draft recommendations for the ward boundaries in Derby City Council would split Osmaston in two, the proposal keeps some of Osmaston Park Road, Victory Road, Ashtree Avenue, Elmtree Avenue and Oaktree Avenue joined with Sinfin not Osmaston.

The draft proposal would place Osmaston Park in Sinfin and not Osmaston along with the Osmaston Park Allotments. I don't think it makes sense for a few hundred houses to be separated from one of the oldest and longstanding communities in Derby.

Osmaston should stay as one community and join with Wilmorton and Crewton and be a new ward. It's all about communities, and we know Osmaston and Sinfin are very different.

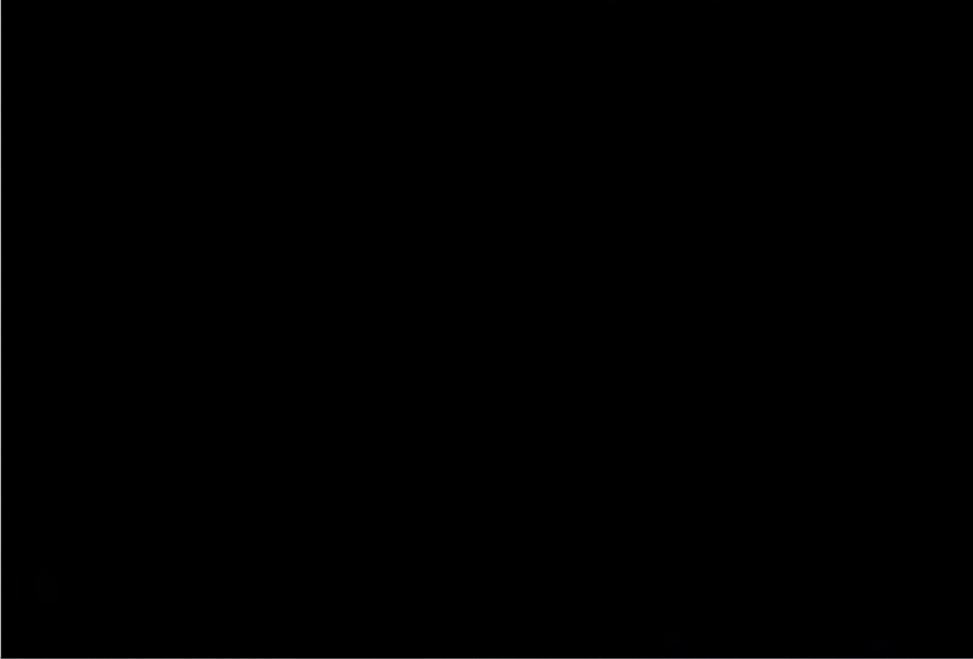

Review Officer (Derby)  
Local Government Boundary Commission for England  
PO Box 133  
Blyth  
NE24 9FE

To whom it may concern,

**SUNNYHILL – ONE COMMUNITY**

I would like to express my support for the draft proposal that reunites Sunnyhill and places it under one set of elected Councillors. I am glad that at long last both sides of Sunnyhill Avenue, adjoining streets, including the Austin Estate, Sunnyhill Community Centre and the Caxton Road Estate are now reunited with the other parts of Sunnyhill. This will provide for a better identity and interest for our elected representatives and community.

Yours sincerely

To whom it may concern,

**Reuniting Normanton Community**

I would like to express my support for the draft proposal that reunites Normanton by placing Abbey Ward voters east of Carlton Road up to Warwick Avenue in Normanton Ward. It did not make sense to have Clarence Road and Porter Road split , especially when it is clear they, and surrounding Streets, are same in housing stock and community identity.

Review Officer (Derby)

Local Government Boundary Commission for England

PO Box 133

Blyth

NE24 9FE

To whom it may concern,

**SUNNYHILL – ONE COMMUNITY**

I would like to express my support for the draft proposal that reunites Sunnyhill and places it under one set of elected Councillors. I am glad that at long last both sides of Sunnyhill Avenue, adjoining streets, including the Austin Estate, Sunnyhill Community Centre and the Caxton Road Estate are now reunited with the other parts of Sunnyhill. This will provide for a better identity and interest for our elected representatives and community.

Local Government Boundary Commission for England  
PO Box 133  
Blyth  
NE24 9FE

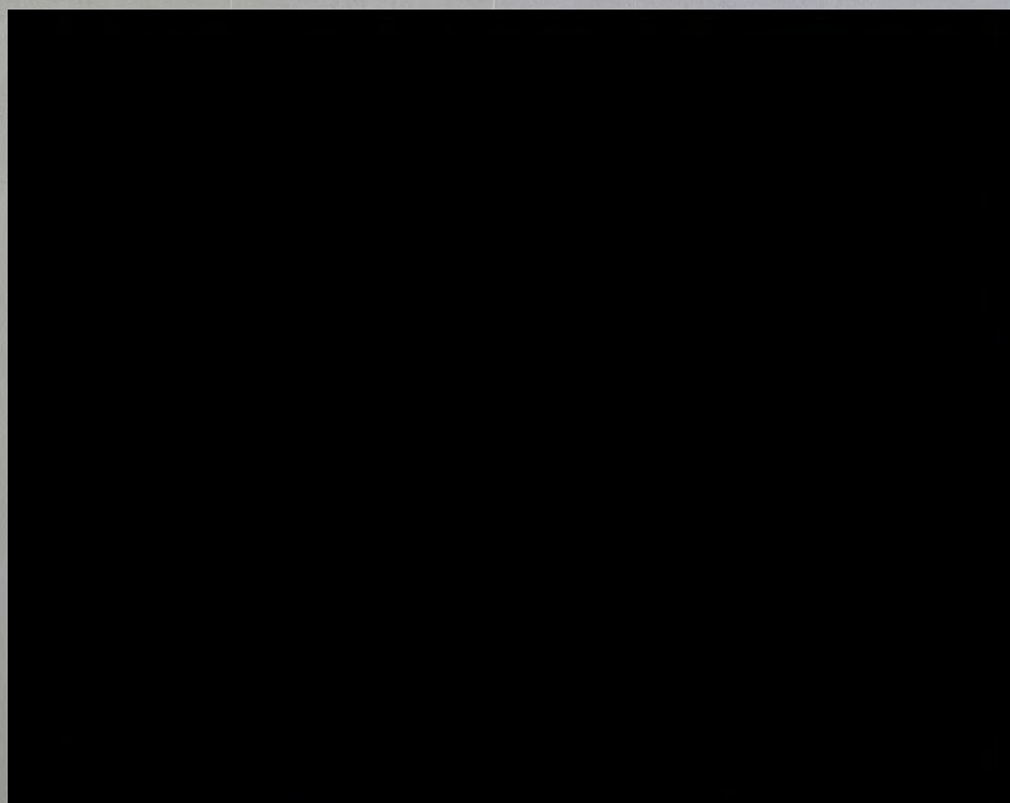

To whom it may concern,

**HEATHERTON VILLAGE**

The Boundary Commission draft recommendations for the ward boundaries in Derby City Council have allowed for single members wards. I sincerely believe that this allows Heatherton Village to be represented by single Councillor.

Currently we have three councillors but it is felt that much of their focus is on the old village of Littleover.

We believe that a dedicated councillor for Heatherton Village would give us better representation that reflects our local community.

Local Government Boundary Commission for England  
PO Box 133  
Blyth  
NE24 9FE

To whom it may concern,

**Reuniting Normanton Community**

I would like to express my support for the draft proposal that reunites Normanton by placing Abbey Ward voters east of Carlton Road up to Warwick Avenue in Normanton Ward. It did not make sense to have Clarence Road and Porter Road split , especially when it is clear they, and surrounding Streets, are same in housing stock and community identity.

Review Officer (Derby)

Review Officer (Derby)  
Local Government Boundary Commission for England  
PO Box 133  
Blyth  
NE24 9FE

To whom it may concern,

**KEEPING Arboretum Ward's identity and interest intact**

As local Cllrs we mostly support the proposed three-member Ward Boundaries for Arboretum and Normanton, especially the reunification of Normanton Ward in the South West - with all of Porter Road, Clarence Road and adjoining streets east of St Chads Road and Carlton Road and north of Warwick Avenue being unified in Normanton as one community.

However not including Arboretum School and the adjoining streets east of the school in Arboretum does not, in our opinion, keep the 'identity and interest' of the community intact. Feedback, from local residents living in the area support this view.

The draft proposal puts Richmond Road, Yate Street, Beecher Street in Normanton. For twenty years they have been an integral part of the Arboretum community. We would propose using Peartree Road, the previous boundary between Normanton and Arboretum, being re-established up to Dairyhouse Road and going north on Dairyhouse Road to Holcombe Street as the boundary between the two wards. This enables all of Rutland Street, Peartree Street and majority of the old residential parts of Harrington Street to be in one ward (Normanton), whilst not losing the links and identity felt by local residents to Arboretum - with Arboretum Park as the focal point. Surely Arboretum School and it's community should be in Arboretum.

To whom it may concern,

**SUNNYHILL – ONE COMMUNITY**

As a local Cllr we very much support uniting Sunnyhill and placing it in Blagreaves Ward. Whilst as a Normanton Cllr we would be losing a significant area, this is very much overridden by uniting Sunnyhill as one Community.

**SUNNYHILL – ONE COMMUNITY**

I would like to express my support for the draft proposal that reunites Sunnyhill and places it under one set of elected Councillors. I am glad that at long last both sides of Sunnyhill Avenue, adjoining streets, including the Austin Estate, Sunnyhill Community Centre and the Caxton Road Estate are now reunited with the other parts of Sunnyhill. This will provide for a better identity and interest for our elected representatives and community.

To whom it may concern,

**KEEP ARBORETUM SCHOOL COMMUNITY IN ARBORETUM**

The Boundary Commission draft recommendations for the Arboretum Ward boundaries in Derby City Council has Arboretum School and it's adjoining community in Normanton Ward. This area belongs in Arboretum Ward with the school and Arboretum Park being the identity and interest that connect and bind the local community.

The area north of Peartree Road and Princess Street has been part of Arboretum for a long time. This should be brought back into Arboretum

These comments and amendments have been communicated to local Councillors and the proposed boundary here should be changed.

### **KEEP ARBORETUM'S IDENTITY INTACT**

We the undersigned think Arboretum School and adjoining streets east of it should be in Arboretum and stay together, as a community. We don't think it makes sense for a few hundred houses to be separated from our community. The previous Boundary with Normanton of Peartree Road needs to be reinstated. We call on the Boundary Commission to keep Arboretum School Community Together in Arboretum and not in Normanton Ward.

## **KEEP ARBORETUM'S IDENTITY INTACT**

We call on the Boundary Commission to keep Arboretum School Community Together in Arboretum and not in Normanton Ward.

## **KEEP ARBORETUM'S IDENTITY INTACT**

We the undersigned think Arboretum School and adjoining streets east of it should be in Arboretum and stay together, as a community. We don't think it makes sense for a few hundred houses to be separated from our community. The previous Boundary with Normanton of Peartree Road needs to be reinstated. We call on the Boundary Commission to keep Arboretum School Community Together in Arboretum and not in Normanton Ward.

To whom it may concern,

**Reuniting Normanton Community**

I would like to express my support for the draft proposal that reunites Normanton by placing Abbey Ward voters east of Carlton Road up to Warwick Avenue in Normanton Ward. It did not make sense to have Clarence Road and Porter Road split , especially when it is clear they, and surrounding Streets, are same in housing stock and community identity.
