### Comment text:

Dear Boundary Commission, I have lived in the Wellington area for over 50 years and have seen many boundary changes as the new town of Telford has developed. I confirm my support for the proposal to combine wards in Wellington as outlined in your response to original consultation. The proposed changes to Hadley & Leegomery area do not sit so neatly. The development of Leegomery , one of the earlier major estates on this side of Telford, around Hadley has been most successful , there are plenty of footpaths between Hadley & Leegomery and both Centres are well used. Further development has been designed to enhance life in the area. Local services provided by both the Borough and the Parish Council are well established and the many Community Groups, Youth and Social Care, Policing and Safer Neighbourhood schemes and Sports Leagues who operate in the area follow the present boundaries to organise their activities. Hadley & Leegomery Ward, with three councillors is a coherent community and the proposed changes to the present boundaries would have an impact on a wider canvas than immediately thought. I submit there should be no change to the present Hadley & Leegomery Ward boundary.
