Comment text:

I work in the centre of Oakengates in a cafe and I was really upset to hear about the changes which are proposed for the area of Oakengates and Ketley Bank. Lots of the customers have been saying about how this makes no sense as Ketley Bank is part of our town, as is Wrockwardine Wood. Lots of our regular customers come from these areas on the bus, often whilst also visiting the doctors or pharmacies in town. They have been talking about how this change makes no sense and they're upset about no longer being able to say they live in Oakengates, despite being the place they were born. I said I would write this submission on behalf of lots of the older people who come into the cafe who do not have an email or the internet. Please take these views into account as myself, and many others, feel it is a mistake to change Oakengates from its current boundaries and separate it from its community.
