Comment text:

I cannot understand the proposals to merge Apley Castle with leegomery, when in 2003 the boundaries were changed and in 2009 95% of the residents approved of the name change from leegomery to Apley. Apley is rich in heritage and has an identity focused around Apley woods and the local nature reserve in which we are all proud. It seems to me a backward step and a needless expense for the local tax payers . I say NO to the name change and keep it APLEY
