I struggle to see why the Ketley Bank / Grange area is being put together with Ketley and Red Lake. From living in Ketley Bank, I would say that Oakengates represents more of where I live than Ketley does. I believe a better option would be to keep Mossey Green Way as the dividing line and merge Ketley Bank / Grange with Oakengates to create a two councillor ward, leaving Ketley and Red Lake as a one member ward. It seems odd having an urban area that could be 4.5km from one end to the other, whereas keeping Ketley Bank / Grange with Oakengates leaves a maximum of around 2.5km.
