### Comment text:

The joining of Leegomery and Apley into a single two seat ward is a huge retrograde step and takes us back to where we were 15/20 years ago before apley got its identity. The two areas whilst neighbouring are very different and have different requirements. Why split Newport into 4 single wards and join these two? It has no benefit to the residents. Especially the Apley residents who voted almost unanimously to have Apley as a separate area when the Royal Mail consulted residents on the issue in 2009. There is a danger that some of the areas that are looked after so well in Apley like Apley woods will see that care diluted as other issues more leegomery based come to the fore. I am 100% against this proposal.
