Comment text:

Apley Castle is a small community close to Telford hospital and as such has a unique situation. An award winning woodland and ancient castle are within the ward boundary and this alone should ensure that it stays a ward in its own right. It stands on land with a unique and long history dating back to 1327 and beyond. Many buildings are listed and newer builds are in keeping with the area, the very name Apley Castle indicates special historic interest. Lets keep it that way and preserve just a little bit of our national pride.
