

Regarding the boundaries between Hangleton & Knoll and Hove Park wards: I feel that the Toads Hole development- which is currently situated in H&K- would be a better fit in HP. It is situated outside of the natural H&K boundaries and will form part of the community in HP ward (King George VI Drive/ Goldstone Crescent etc.) The bus networks which serve HP ward are due to serve this new development. In order to balance out this increase to HP, the following could be transferred into H&K: Nevill Avenue (which already is partly in H&K), Nevill Road, Court Farm Road (which already is partly in H&K), Frant Road, Nevill Place, Nevill Gardens and Eridge Road. This area forms part of the old West Blatchington area, which was always historically associated more with H&K.
