Comment text:

Hi I live in Peopleton, and am unsure why there are proposed boundary changes to put Peopleton into a ward with Drakes Broughton. Drakes Broughton has expanded massively recently, and has such has almost become an extension of Pershore. Peopleton is very much a rural village with a strong sense of community. This community extends to Upton Snodsbury, where my children go to school and have links with the church. Both villages have a lot in common and share facilities. We have an excellent Councillor Linda Robinson who has been very active in supporting the villagers recently with rural issues, and was very successful in halting the removal of trees in an ancient orchard. The majority of the people in Peopleton care passionately about the environment and wildlife and losing such a pro active councillor would be devastating. [REDACTED]
