The current wards we have already have never supported concerns regarding Care Homes ,especially in lock down ,not one of them have supported families who lost family to Covid in Care Homes during lockdown , Not one of them supported me in my area Hednesford when I have a Children's Home next to me , police still turning up at least twice a week , windows still being smashed ,double glazed units put through , care workers knocked unconscious,police spat at ,ended up in the road with police cars ,but Councillor Jones , Ex Police officer didn't want to know , I have grandchildren who play in my garden , they've thrown objects over ,food over ,cigarettes,my dog ended up at the vets , I reported it to CQC no one wanted to listen ,they all turned there back on me ,so whoever you take on board , I doubt will make a change regarding my concerns . Disappointed with them all who I reached out to ...,Councillor Jones thought he was still in the police force , he showed no empathy or understanding in his reply ,Amanda Milling was also the same , it's not something she deals with ,also Mr Johnson . When the drug situation is addressed by councillors and the police ,then hopefully remove them from our town ,from shops on the station road ,the sheds at the back of the barbers , we want our town back to how it was ,there are a group of us women and we have to get a taxi when we visit each other which is a 10 minute walk because it's just not safe anywhere . Immigration, Serco , taking over all hotels , I'm frightened for my grandchildren,but what are you all going to do to make the towns in and around hednesford safe ???
